

NATURE AND PRESENCE OF THOUGHT ADJUSTER

The source of the Thought Adjuster is infinite. Before fusion with the immortal soul of an evolving mortal, the reality of the Thought Adjuster must border on absoluteness¹. Thought Adjusters are not absolutes in the universal sense, in the Deity sense, but they are true absolutes within the potentialities of their fragmented nature. They are qualified² as to universality but not as to nature; in extensiveness they are limited, but in intensiveness of meaning, value, and fact, *they are absolute*. Thought Adjusters are the qualified absolute fragments of the Universal Father.

No Thought Adjuster has ever been disloyal to the Universal Father; the lower orders of personal creatures may sometimes have to contend with disloyal fellows, but never the Thought Adjusters; they are supreme and infallible in their supernal sphere of creature ministry and universe function.

Can you realize the true significance of the Thought Adjuster's indwelling? Do you fathom what it means to have an absolute fragment of the absolute and infinite Deity, the Universal Father, indwelling and fusing with your finite mortal nature? When mortal man fuses with an actual fragment of the existential Cause of the total cosmos, no limit can ever be placed upon the destiny of such an unprecedented and unimaginable partnership. In eternity, man will be discovering the infinity of the objective Deity but also the unending potentiality of the subjective fragment of this same God. Always will the Thought Adjuster reveal to the mortal personality the wonder of God, and never can this supernal revelation come to an end, for the Thought Adjuster is of God and as God to mortal man.

THOUGHT ADJUSTER MINDEDNESS

Evolutionary mortals are prone to look upon mind as a cosmic mediation between spirit and matter, for that is indeed the principal ministry of mind as discernible by man. Hence it is quite difficult for humans to perceive that Thought Adjusters have minds, for Thought Adjusters are fragmentations of God on an absolute level of reality which is not only prepersonal³ but also prior to all energy and spirit divergence. On a monistic level antecedent to energy and spirit differentiation there could be no mediating function of mind, for there are no divergences to be mediated.

Since Thought Adjusters can plan, work, and love, they must have powers of selfhood which are commensurate⁴ with mind. They are possessed of unlimited ability to communicate with each other. They must be minded in some manner else they could never be personalized. The mindedness of the Thought Adjuster is like the *mindedness* of the Universal Father.

When a Thought Adjuster is fused with the evolving immortal morontia⁵ soul of the surviving human, the mind of the Thought Adjuster can only be identified as persisting apart from the creature's mind until the ascending mortal attains spirit levels of universe progression.

THOUGHT ADJUSTERS AS PURE SPIRITS

As Thought Adjusters are encountered in creature experience, they disclose the presence and leading of a spirit influence. The Thought Adjuster is indeed a spirit.

The Thought Adjuster is man's eternity possibility; man is the Thought Adjuster's personality possibility. Your individual Thought Adjuster works to spiritualize you in the hope of eternalizing your temporal identity. The Thought Adjusters are saturated with the beautiful and self-bestowing love of the Father of spirits. They truly and divinely love you; they are the prisoners of spirit hope confined
